ONEPIECE BIKE LANDINGS

REALISTIC AND SAFE LANDINGS FOR BMX / SCOOTER / SKATE / PIT BIKES / MTB

SESSION IT ANYWHERE!

Bring your OnePiece Landing wherever you go and session it with your friends or practice safely for your next competition! Packs down small and easy to transport.

NO DIRT NEEDED

Just set the OnePiece Landing up wherever and whenever you like without the need of digging dirt landings. Ideal to set-up in your back yard!

SETUP WITHIN MINUTES!

The OnePiece Landings can be setup by 1-2 people within a matter of minutes. Rock up to a spot and have your entire setup ready in under 5 minutes!

INTERNAL BLOWER

For a clean look and functionality the blower is located inside the OnePiece Landings to provide you a true plug & play experience!

PATENTED NEW SHAPE

This new patented shape with slanted backside and smooth transitions provides the best landing experience on an airbag landing by far.

Produced with technical textiles manufactured by

HEYtex[®]

Specifically developed materials from Germany by HeyTEX this Landing will last you many years to come! 2 Years full Warranty & Made in the EU!

ONEPIECE BIKE LANDINGS + MTB HOPPER RAMP BUNDLES

MTB Hopper // Pro

PORTABILITY

Every MTB HOPPER Product is designed with Portability in mind.

CONSTRUCTION

When designing MTB HOPPER, we aimed for balance between strength and weight, between easy assembly and reliability, between attractiveness and safety.

GEOMETRY

MTB HOPPER's slightly progressive geometry provides an optimal smooth boost, while still suitable for faster speeds as well. This was achieved by connecting the three top segments in angles of 5 degrees. The adjustable legs let you control the overall angle of the kicker.

MTB Hopper // Area 51

ADJUSTABLE LEGS

To ensure stability, MTB HOPPER was designed with 6 points of support, 4 of which are adjustable. They can be quickly and easily adjusted without tools.

LIKE A BRIEFCASE

The top plate of MTB HOPPER is like a briefcase, as the whole construction folds inward. After using MTB HOPPER in muddy conditions, fold it dirty side inward. The outer side is kept clean for your car's trunk.

FIRST JUMP ADAPTERS

MTB HOPPER COACH includes small adapters that make the ramp smaller for first jump riders!

- 1. Pro + Small OnePiece bike landing €3999 €3724
