

BAGJUMP
THE ORIGINAL

AIR-PIT

USE IT ANYWHERE IN THE GYM

The AirPit can be used for most of your disciplines. Minitramp, Double Mini, Tumbling, Rings, Parallel Bars, Vault, Balance Beam, Trampoline and more.

HYGIENIC

Foam pits create lots of dust, are unhygienic and full of bacteria. Cleaning them is hard work and it takes hours. With an airbag this won't be a problem anymore. It is easy to clean and will leave your gym dust-free.

SOFTER THAN YOUR MATS

The AirPit is much softer than the thickest gym mats. If you are training new skills then crashing into an airpit is a lot more forgiving and will reduce the risk of injury significantly.

BUILT TO LAST

BAGJUMP® builds only premium quality sports equipment with custom made high-tech materials by HeyTEX Germany combined with high end manufacturing to ensure that your AirPit will perform at the highest level under all conditions.

COMBINE WITH GYM MATS

The AirPit pressure can be set according to the softness you need. On top of that you can stack foam mats on your airpit to get a stiffer landing surface if needed.

EASY TO SETUP AND MOVE AROUND

Within minutes 1-2 people can set it up or pack it. Moving it around in the gym is much easier than a heavy mat. It is very portable inside and outside the gym- especially when packed up.

BENEFITS YOUR TRAINING

The AirPit immediately provides coaches with the benefits of a foam pit in your gym and expands your training possibilities for multiple disciplines.

LOW STORAGE SPACE

When deflated and packed to around 5% of its inflated size it becomes very portable and will take up hardly any storage space. In comparison to mats it is lighter and uses much less space.

15+ YEARS OF EXPERIENCE

AIRPIT

At only 70cm the AIRPIT is ideal for situations where height matters. In case you are training children or beginner athletes and can not have a higher landing surface than 70cm then the AIRPIT is the right product for you.

SIZES	INFLATED	PACKED	WEIGHT
Small	4,3 x 2,2 x 0,7m	X,X x X,X x X,X m	
Medium	5,0 x 3,0 x 0,7m	X,X x X,X x X,X m	
Large	6,0 x 4,0 x 0,7m	X,X x X,X x X,X m	

AIRPIT PERFORMANCE

In case you are performing skills and need a softer landing then the AIRPIT Performance is the right product for you. At a height of 100cm the extra 30cm of cushioning allows for bigger skills, higher fall heights and much softer and more progressive landings.

SIZES	INFLATED	PACKED	WEIGHT
Small	4,3 x 2,2 x 1,0m	X,X x X,X x X,X m	
Medium	5,0 x 3,0 x 1,0m	X,X x X,X x X,X m	
Large	6,0 x 4,0 x 1,0m	X,X x X,X x X,X m	

PLEASE ENQUIRE FOR CUSTOM SIZES

Includes Bagjump's® Soft Touch Topsheet® material cover.

Fully customizable branding with your gym logo and colors available upon request.

Choose between 6 colors (black, grey, blue, red, green, yellow, white).

Air pressure / softness can be changed quickly for different training scenarios

Are you tired of your old dirty foam pit? Then ditch the dust and replace it with a Bagjump® airbag. Contact us for more information on replacing existing pits.
