About us

Words from our Founder

Martin Rasinger, founder of BAGJUMP® and professional snowboarder, has first-hand experience in hard-impact falls and landings. BAGJUMP® is the go-to solution in the world of aerial stunts and high-flying adventures. Our airbags are the optimal safety net of choice for all kinds of impacts.

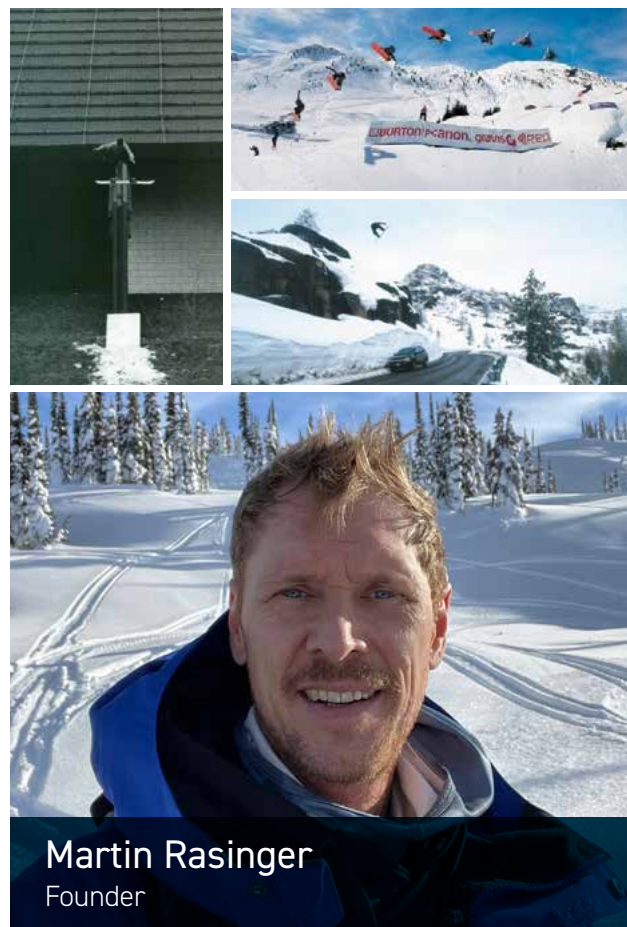

As a pro snowboarder from 1997-2008, I understand the thrill of catching air, but also the harsh reality of tough landings. After facing multiple injuries while pushing the boundaries of freestyle snowboarding, I knew a solution was necessary. I wanted to create a way to practice tricks without the painful consequences of learning, envisioning a reliable way to test out different take-offs without the risk of injury. In spring 2007, I teamed up with Hollywood stuntmen and engineers, and developed the solution to bring BAGJUMP® Airbag Systems to life together with my friend Peter Remmerie.

Not long after, BAGJUMP® airbags rapidly gained popularity amongst professional snowboarders as their number 1 training tool. National teams worldwide followed, along with ski resorts, event planners, advertisers and promoters. It was apparent that the airbags were more than a safe training tool, acting as advertising space, offering great visibility for brands and resorts alike.

All of the world's top athletes have worked with our exclusive piece of equipment and learned some of their biggest technical tricks with the help of BAGJUMP®. Due to their impact absorbing ability, the athletes gained confidence while training with BAGJUMP®, resulting in an accelerated progression in Olympic Snowboarding.

BAGJUMP® has come a long way since pioneering the "Megabag" for snowboard and ski pros. My team and I stayed focused on innovation and safety, and our journey has made us an important part of the world of extreme sports today. Teaming up with elite athletes and popular

brands, we've redefined how safety and performance can work together. As athletes ourselves, we create products which the worldwide sports community can both have fun with, and benefit from.

Martin Rasinger
Founder

BAGJUMP® Airbag Systems is the pioneering inventor and manufacturer of the world's leading airbag systems for sports, leisure, and safety applications.

Our airbags are advanced, safety-focused systems for thrill-seekers worldwide that offer soft landings, absorb impact forces, and reduce the risk of injuries during high-risk activities.

We have always tried to make a difference in whatever we do, and in our efforts have changed action sports, gymnastics, the trampoline and adventure park industries for the better. We looked at what is possible and applied our technology and drive for innovation to various sports and safety applications.

But our focus is not on safety alone – we are excited about pushing boundaries and enabling people to progress to the next trick or challenge. We have been involved in lots of the most ground-breaking stunts and action sports developments ever – from Shaun White to Travis Pastrana, the best in the game have worked closely with us to achieve the unthinkable. I am proud of what we have done with the top athletes in the world, which has been lots of fun and at times also a bit scary, but I would say the most meaningful part is to walk into a facility that uses our airbags and then see the amazing progress young kids are making in a safe manner and the excitement they have while doing it. There is a new extremely talented generation, and we are proud to have built the safety platform that helps them achieve their goals and push their limits, rather than getting injured and stopping these sports.

It's been a rewarding experience to see how far various sports, industries, and even our own airbags have evolved over the years. It has made all the hard work pioneering these airbags and introducing them to the world absolutely worth it. Good things don't come easy, and it definitely was not, but we have been the trailblazer and that is also a position in which you can learn a lot, especially from the mistakes that have been made while figuring everything

out. Michael Jordan once said: "I failed over and over again in my life, and that is why I succeed". Over the last two decades, we've learned from our failings. There has been a huge learning curve in product design, materials, manufacturing techniques, process management and such, which is why we are now able to build the best and most durable high performance airbag products in the world. Even aerospace companies with insane engineering capacities are buying fall protection from us – as well as Hollywood stunt companies – where it all started. There are no shortcuts!

What is next? We have lots of exciting new ideas and plans, within the industries we are already working in and beyond. So stay tuned!

Hannes Rasinger
Co-Owner

History

BAGJUMP® – The Original Innovators

In February 2007, the iconic “Megabag” was born. The ensuing years witnessed a series of transformative milestones. From its use as a pure professional training tool to the availability for public use in March 2008. The Megabag propelled freestyle enthusiasts to new heights, gaining international recognition at Air&Style, Arctic Challenge, used by national teams around the globe and used commercially at hundreds of festivals worldwide and national teams around the globe. Noteworthy moments followed, including the development of the safety ring and the replacable topsheet along with the enhanced valve

technology. Hollywood stardom beckoned with appearances in many movies as the stunt tool of choice. Superstars such as Shaun White and Travis Pastrana have pushed the boundaries of possibility whilst using our airbags, forging a new era in freestyle performance. Innovations such as the revolutionary air pillar system and the invention of the Landing Bags in 2013 and 2014 redefined safety standards in various sports worldwide. It's safe to say that BAGJUMP® changed the face of many action sports, while ensuring the highest standards for safety. We continuously develop new airbag systems for sports applications and beyond.

Winter 2007

Innsbruck, Austria

The Very First Airbag

Austrian professional snowboarder Martin Rasinger conducts the first stunt airbag testing in Hollywood. After multiple jumps, failures, meetings and tests with the stunt industry, the first airbag for high performance snowboarding was created: the BAGJUMP® “Megabag”.

Spring 2008

Westendorf, Austria

Available for Public

The BAGJUMP® airbags become publicly available, enabling professional and recreational freestyle athletes to reach new personal heights.

Summer 2008

Whistler, B.C. Canada

BAGJUMP® goes global

BAGJUMP® gets booked by global events such as Camp of Champions in Whistler B.C. Canada and showcases the first airbag for pro-training in North America. Even showcasing the new technology on Discovery Channel.

Summer 2009

Cardrona, New Zealand

National Teams Love Us

Introduction of the innovative “Grande Airbag” with enhanced safety features at Mammoth Mountain, becoming the most popular training tool for national teams.

Winter 2009

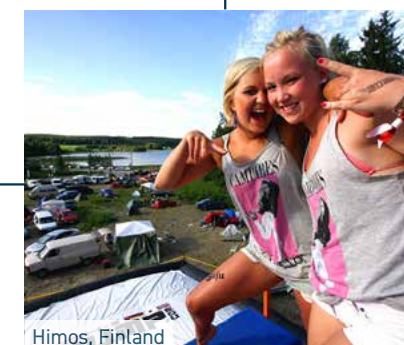

Air & Style Innsbruck, Austria

First Protection Airbag

The development of the first customer airbag for Air&Style sets new safety standards for high-performance quarter- and half-pipe contests worldwide.

Summer 2010

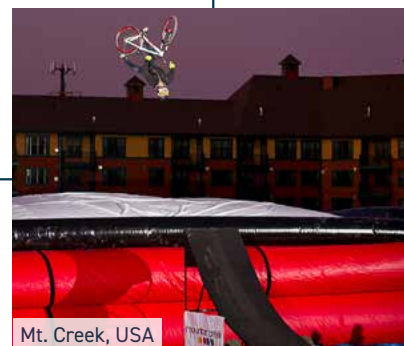

Himos, Finland

Freedrop - A New Sport

Inventing a new sport called “Freedrop” where participants jump from a scaffold or scissor lift into the BAGJUMP® airbags. The Nr.1 activity on 50+ festivals throughout Europe.

Summer 2010

Mt. Creek, USA

BAGJUMP® Goes Bike

Bikeparks showed an increased interest for pushing the limits safer as seen in lower case skiing and snowboarding. Highland Mtb Park and Mt. Creek USA were amongst the first to open BAGJUMP® Biking for public use.

Winter 2010

Helsinki, Finland

Global Distributions

2010 BAGJUMP Inc. USA was born and lead to the opening of many worldwide distributions such as Italy, France, Scandinavia, South Africa, Japan, UAE, Australia, Uruguay and Canada.

Summer 2011

Pastranaland, USA

First FMX Session

The first ever use of an airbag for FMX onto a BAGJUMP®. A long-lasting partnership with Travis Pastrana and Nitro Circus was born that changed FMX forever.

History

Summer 2011

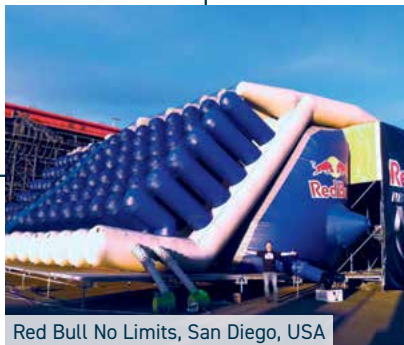

Mt. Hood, USA

Inventing the "Vertbag" for Ski and Snowboard

BAGJUMP® invented the "Vertbag" for enhanced halfpipe training safety, and helped the Olympic athletes learn the most ground breaking tricks, such as the triple cork.

Fall 2011

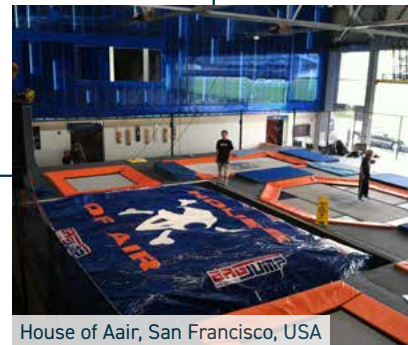

Red Bull No Limits, San Diego, USA

Inventing the Air Pillar System

The new BAGJUMP® air pillar system, used for the Red Bull No Limits 2012 world record stunt, sets the cornerstone for changing the industry once again.

Fall 2011

House of Air, San Francisco, USA

Inventing the First Ever Foam Pit Airbag

The 'AirPit Inground', formerly known as the 'Foam Pit Airbag'. The first ever airbag in a trampoline park revolutionized the industry.

Summer 2013

First Airbag Ever to be TÜV Certified

Being the first to have an airbag certified by the TÜV. This kicks off many years of certifications and co-writing worldwide industry standards such as ASTM, DIN EN ISO, ATPA, BSI and more.

Summer 2014

Exclusive Partnership with HEYtex Germany

Partnering with the most advanced technical textile manufacturer in the world. This partnership fast tracks the development of high tech materials this industry has seen for unmatched performance and durability.

Fall 2014

Replaceable Air Pillars

First Patent Filed for "Replaceable Air Pillars"

BAGJUMP® files the replaceable air pillar patent, which revolutionizes the durability and performance in airbags, especially for high use environments such as trampoline parks.

Winter 2014

Travis Pastrana, USA

Inventing the First Landing Airbag

BAGJUMP® introduces the first landing bag ever for freestyle motocross and revolutionizes the industry. Now landing bags have become the new standard in a variety of different freestyle sports for safety.

Summer 2016

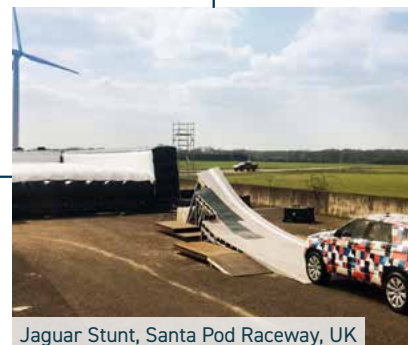

Daniel Schmidt, Hamburg, Germany

Inventing the "AirPit Gymnastics"

Building on its success, the BAGJUMP® AirPit evolves into the versatile "AirPit Standalone" airbag, another game changer not only for the gymnastics industry.

Spring 2017

Jaguar Stunt, Santa Pod Raceway, UK

Leading in Stunt Developments

Development of a custom airbag for the infamous James Bond barrell roll stunt performed by Terry Grant in a Jaguar F-Pace. A new platform for Jaguar, testing on hundreds of safe crashes to complete the barrell roll.

Summer 2017

Cape Canaveral, Florida

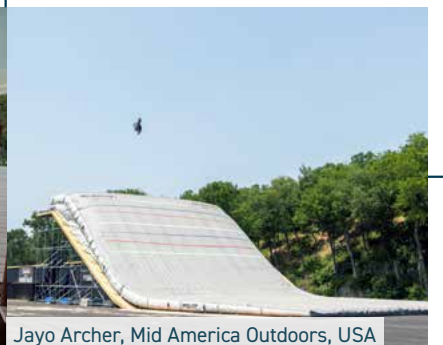

Aerospace Developments

BAGJUMP® is developing a prototype for drop-testing of fairing halves during fairing separation. Successfully tested at Cape Canaveral Air Force Base, Florida

NOW

Bangkok, Thailand

Jayo Archer, Mid America Outdoors, USA

BAGJUMP® Continues to Revolutionize Industries

Innovation goes on! BAGJUMP® keeps innovating airbag technologies, materials and product designs together with the world's leading athletes and brands. Creating new airbag solutions for bikeparks, snowparks, adventure parks for new thrills and fun as well as pushing extreme sports to new heights with groundbreaking airbag innovations!

Facts

Why BAGJUMP®

With our rich action sports heritage, BAGJUMP® is the industry leader in airbag innovation, offering high-performance, low-maintenance, hygienic and long-lasting airbag systems for sports, leisure and safety applications.

1

PASSION

At BAGJUMP® we feel extremely fortunate to be involved in the progression of extreme sports and revolutionizing the leisure industry to bring better and safer experiences to adrenaline seekers everywhere. We love what we do and are excited to push things forward!

2

INNOVATION

Innovation in any sphere takes courage. We have been innovating airbag technology alongside many of the world's leading athletes and brands over the last decade in order to achieve the unthinkable. It excites us to see how our prototypes progress from development to practical application, allowing the world's best to test the limits of possibility.

3

EXPERIENCE

Through our track record of over 5,000 successful projects across various fields globally, we have gained extensive expertise in safety, functionally, manufacturing, and materials of airbag systems. Our in-house engineers possess the prowess to swiftly turn conceptual ideas into tangible reality.

4

INTERNATIONALLY CERTIFIED

All BAGJUMP® products are certified by TÜV for quality. We work together closely with our industry regulators and have played a large role in assisting the writing of various country and industry standards, such as the IATP, ASTM or BSI code of practice.

Trusted by the Best

"BAGJUMP® is the best, most innovative and safest company you can work with. They are never satisfied with good enough and they have saved my neck, my back and all my friends asses more times than I can ever count."

Travis Pastrana, Freestyle Motocross Legend

"The best thing about the BAGJUMP® Airbag is that it unlocks the best potential of the people around you, not only yourself. All the tricks that I've won basically X Games with I learned on the BAGJUMP®. And now my friends are doing the same – it's incredible!"

Ryan Williams, five-times Gold Medalist at the X Games

"What stands out with BAGJUMP® the most is how durable their products are, especially thanks to their replaceable air pillar system! We can easily swap individual pillars in the rare case of damage."

Philipp Howell, CEO @ Best American Trampoline Parks

"I ride BAGJUMP® 'cause they're not made in China!"

Jeremy "Twitch" Stenberg, Freestyle Motocross Legend

"The BAGJUMP® setup is insane! Jumping from some crazy heights and still that BAGJUMP® airbag is like landing on a giant pillow of safety"

Damien Walters, Hollywood Stuntman and Parkour Legend

"The airbags in our adventure park are great fun for the whole family! They're super popular with younger and older kids and adults as well!"

Michael Unger, CEO @ Funpark Drachental Wildschönau, Austria

"BAGJUMP® Airbags have seriously changed the game for my trampoline training. No more stressing about weird surprises buried in the foam pits – such as discovering Chow Mein Noodles in there!"

Kristle Lowell, US Trampoline & Tumbling National Team

"I've been training with various BAGJUMP® Airbags for years and it has helped me so much to learn new tricks. The BAGJUMP® team is very supportive and the products are awesome."

Scotty James, Pro Snowboarder and four-times Olympian

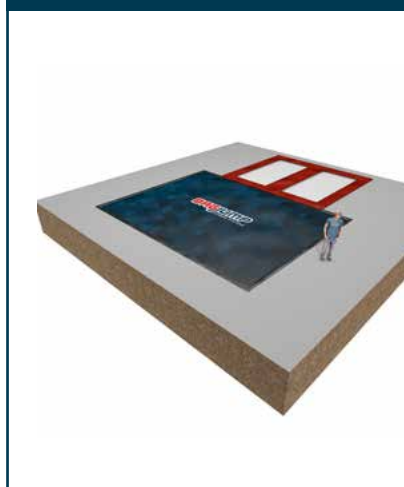

"The longevity of BAGJUMP® products is outstanding. Thanks to BAGJUMP®'s replaceable air pillar system we could exchange more heavily used air pillars in the landing area easily during our monthly maintenance."

Till Walz, CEO and Owner @ Jump House Germany

Airbag Overview

Airpit Airbags

AirPit Inground

The smartest alternative to foam.
Getting sick and tired of foam?
Upgrade to the safest technology of
the future and never worry about
cleaning your foam pit again.

AirPit Standalone

The versatile multi-sports airbag.
The portable, standalone version
of the AirPit Inground is our most
versatile, lightweight airbag system
for all kinds of different activities!

AirPit Gymnastics

The portable pit for gym training.
For anyone who cannot have an
Inground Pit and needs a soft landing
to practice on.

Allround Airbag

Allround Airbag

For extreme adrenaline seekers.
The ultimate airbag system for the highest jumps and
most adrenaline loaded manoeuvres, with maximum
impact absorption.

Custom Airbag

Custom Airbag

Your vision - your airbag!
We specialize in developing airbags tailored to your
specific requirements.

Landing Airbags

Snow Landing

For the most realistic snow training.
The Snow Landing is shaped to mimic
the downslope of a real snowpark
kicker, giving athletes the most
realistic training facility possible.

Tubing Landing

Low skills - high thrills!
Tube rides are a wonderful entry-
level experience to downhill thrills -
and are even greater fun if the tubing
ride ends with a BAGJUMP® to land in.

Bike Landing

Session anywhere, anytime!
Bring your airbag with you wherever
you go; session with friends and
practice anytime, any place. No need
to shape dirt, just ride and enjoy!

FMX Landing

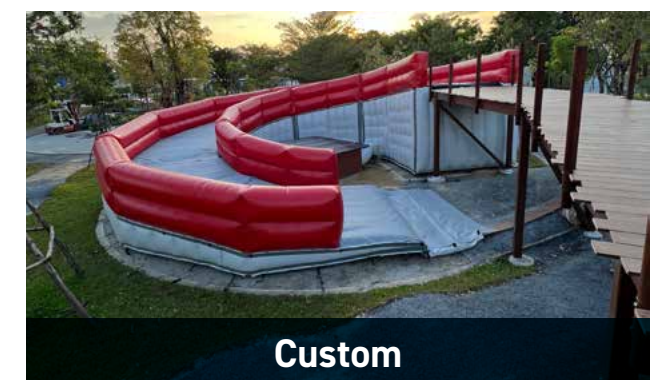

The touring shows favorite!
An all-in-one FMX airbag solution. Featuring an inflated
structure, integrated protection chamber, blower system
and detachable practice extension.

All-Terrain Landing

The game-changer for action sports.
Since its groundbreaking release in 2014, the BAGJUMP®
All-Terrain Landing Bag sparked a phenomenon that
revolutionized action sports.

Areas

TRAMPOLINE PARKS

Duudsonit Activity Park, Finland

Upgrade your Trampoline Park, Family Entertainment Center, Ninja Warrior, or Parkour facility with our BAGJUMP® Airbags and get ready for the next level of fun and safety for your visitors!

Trampoline Parks

DISCOVER OUR AIRBAG SOLUTIONS FOR TRAMPOLINE PARKS

Experience the safety technology of the future and bid farewell to the hassle of cleaning your foam pit. With BAGJUMP® Airbags for your attractions, you'll enjoy enhanced jump frequency, exceptional durability, significant staff and time savings, and immediate returns on investment.

AIRBAGS – A SMART ALTERNATIVE TO FOAM PITS

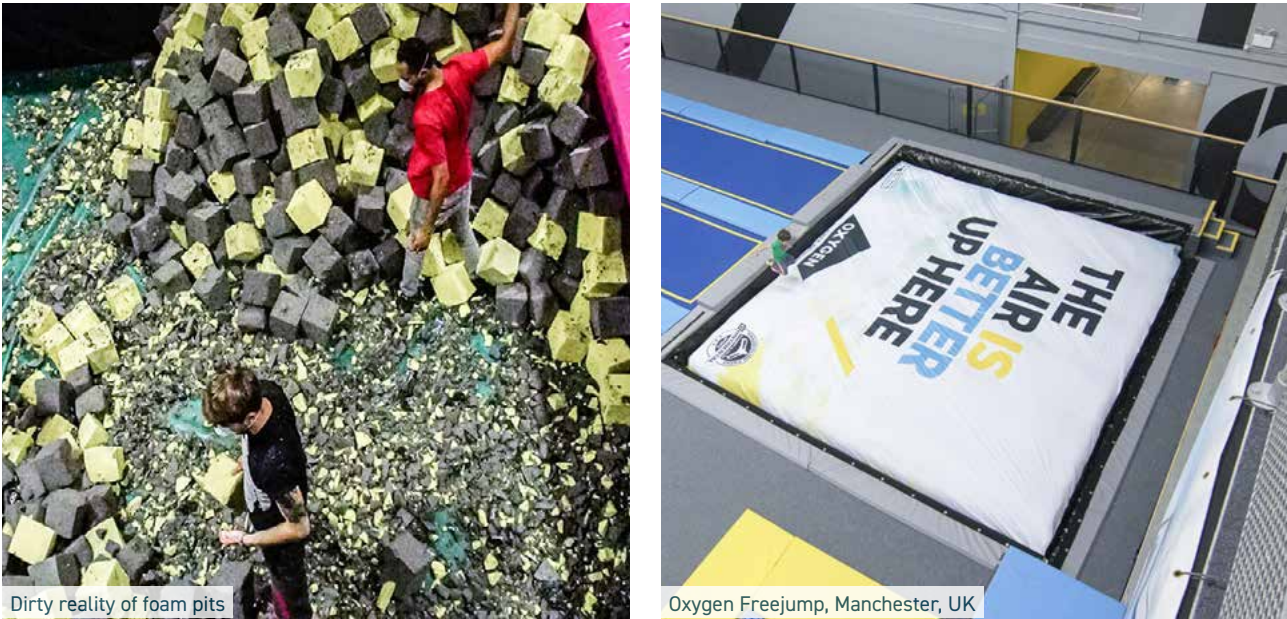

- More hygienic, healthier and easier to clean.
- Easier and quicker exit mean a higher jump frequency.
- Years more durable than foam cubes.
- Airbags provide a higher level of safety compared to foam pits.

SPECIAL ATTRACTIONS AIRBAGS AT AT YOUR VENUE

- Our airbags can be used for any type of pit or activity. Battle Beam, Slackline or Warrior Course - make your activities safer and more fun.
- We fully customize our airbags - we can build all kinds of shapes and sizes. Want to stand out? Use our 'glow in the dark' topsheet.
- Quicker exits from airbags allows users to attempt challenges again promptly, maximizing user frequency and customer satisfaction.

YOUR BENEFITS

HIGHER ROI

Increase your profitability through lower annual costs, less maintenance, higher durability, and higher jump frequency!

INCREASED GUEST SAFETY

Airbags are statistically proven to cause less severe and light injuries than foam pits, which ensures a safer environment for your customers.

HIGHER CUSTOMER SATISFACTION

Our airbags are super easy to exit, which allows you to have more - and happier! - users per hour on the airbag compared to a foam pit.

HYGIENIC APPEARANCE

Our airbags can easily be wiped down and cleaned for your visitors health and your parks appearance - unlike hard-to-clean foam pits.

LESS MAINTENANCE

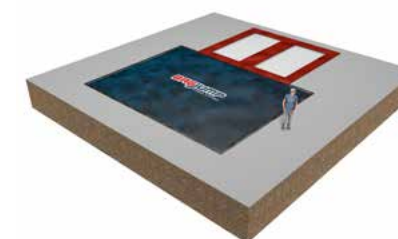

Our airbags require less maintenance, no need for fluffing the pit, refilling landing zones, replacing foam cubes, or expensive deep-cleans.

BRANDING OPPORTUNITY

Generate additional income through targeted branding right where the audience is having their best time!

BAGJUMP® Airbags for Trampoline Parks

BAGJUMP® Airbags for Gymnastics & Parkour

AIRPIT INGROUND
The smartest alternative to foam.

AIRPIT STANDALONE
The versatile multi-sports airbag.

AIRPIT GYMNASTICS
The portable pit for gym training.

YOUR BENEFITS

SAFER TRAINING CONDITIONS

Airbags are statistically proven to cause less injuries than foam pits, which ensures a safer environment for your athletes.

MOST EFFICIENT TRAINING TOOL

Our airbags can be adjusted for desired softness. You can still stack foam mats on top for even firmer landings.

EASY TO CLEAN

Blood, sweat, urine, chalk? Our airbags are much more hygienic than foam pits and you can actually clean and disinfect them easily.

EFFICIENT USE OF GYM SPACE

Our portable airbags for gymnastics and parkour are easily set up, moved around, and stored away within minutes.

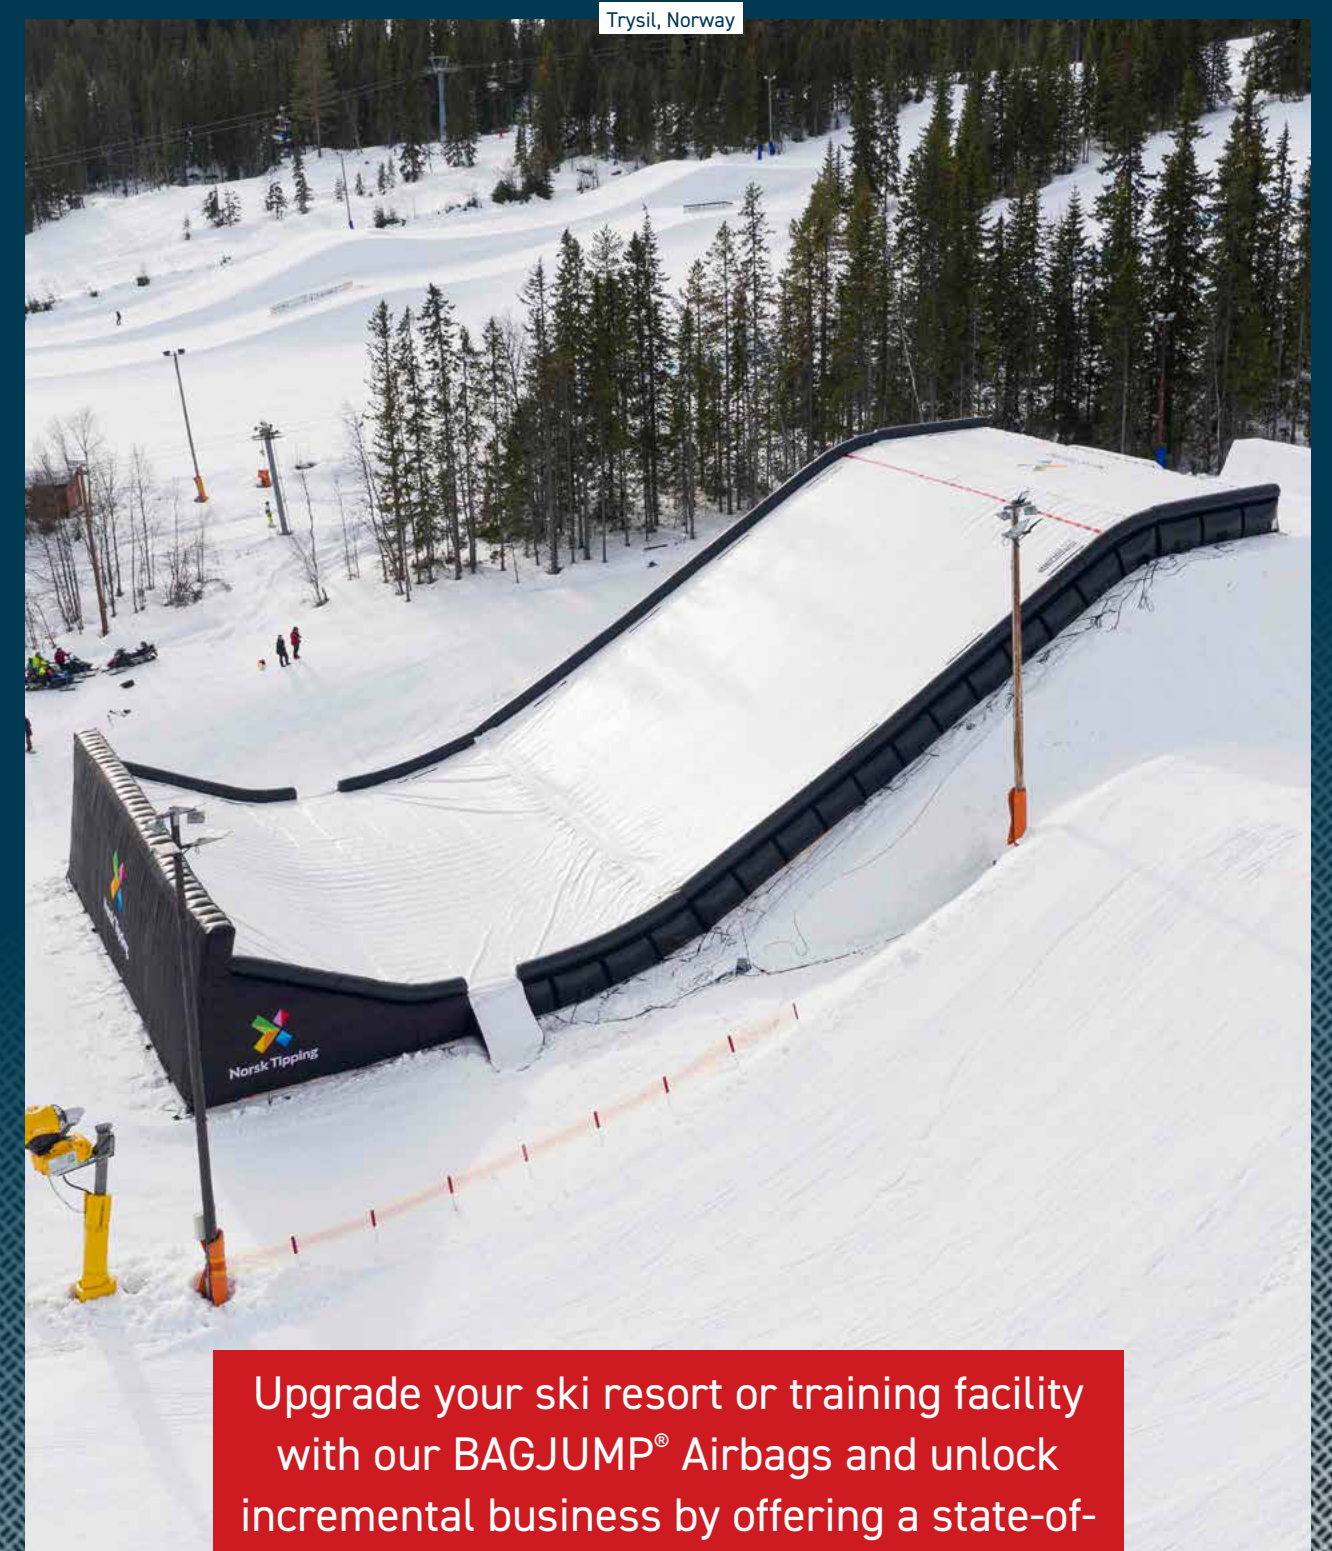

NO MORE TOXIC FOAM DUST

Ever been stuck upside down in a foam pit? Studies have shown the negative health effects of foam on gymnasts.

BENEFIT OUR GYM

Our airbags provide athletes with expanded training possibilities. Enhanced training options will retain and attract gym members.

SKI & SNOWBOARD

Upgrade your ski resort or training facility with our BAGJUMP® Airbags and unlock incremental business by offering a state-of-the-art training option for pro riders as well as providing beginners with the safest way possible to experience their first jumps.

✓ Ski & Snowboard

ELEVATE YOUR SKI RESORT OR TRAINING CENTER WITH OUR BAGJUMP® AIRBAG OPTIONS

Transform your facility into a premier training destination for teams and professional riders or offer your visitors a safe and exhilarating experience. With our innovative Snow Landing Airbags, you can generate year-round income by providing thrilling Tubing adventures even in the summer months.

SNOW LANDINGS FOR ALL SKILL LEVELS

Freesk, Corvatsch, Switzerland

- ✓ The most realistic training environment for riders of all skill levels: thanks to the downslope, it feels like a real landing but much safer.
- ✓ Smaller sized systems for the average ski resort visitor - we will help you decide the correct size for your target group.
- ✓ Large-scale systems for Olympic training facilities: the best in the world, or those aspiring to be, need the best training tools to succeed.

DRY-SLOPE FACILITIES FOR YEAR-ROUND TRAINING

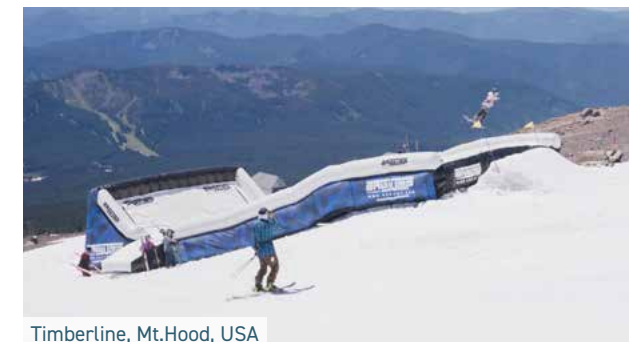

Team Australia, Jindabyne, Australia

- ✓ Let us help you design and build your top-of-the-line dryslope facility.
- ✓ The best athletes need the best training equipment - our airbags are the softest, safest and most durable on the market.
- ✓ Benefit from the most advanced materials available in the world, high performance and realistic landings.

Shaun White, Perisher, Australia

Timberline, Mt.Hood, USA

AIRPIT STANDALONE FOR BEGINNER AND INTERMEDIATE RIDERS

Hoch Ybrig, Switzerland

- ✓ For the beginner / intermediate riders and every day ski resort guests.
- ✓ Our Airpit Standalone offers a flat landing surface, and thanks to its low profile, it's beginner and operator friendly.
- ✓ Smaller takeoffs, easy to operate and maintain - lots of fun!
- ✓ No need to build out big landings - all you need is an inrun and a flat surface to build the jump on and install the airbag.
- ✓ Eye-catching branding opportunity - visible from afar, in the center of the action.

AIRBAGS FOR HALFPIPE TRAINING AND MAXIMUM PROGRESSION

Winsport, Calgary, Canada

- ✓ The BAGJUMP® Vertbag is the only option for the safest and most realistic halfpipe practice.
- ✓ The Vertbag can be placed next to a quarterpipe, spine set up or at the end of a halfpipe.
- ✓ High end materials and manufacturing paired with leading product design guarantee you the absolute softest and safest landing possible to push the limits.

YOUR BENEFITS

YEAR-ROUND INCOME

Our airbags can be used for tubing in summer and on snow in winter to maximize ROI and usage of the product.

NEW CUSTOMERS

Unlock incremental business by attracting new customers with a BAGJUMP® airbag in your resort or facility.

RETURNING CUSTOMERS

Your customers will love the new training conditions and once they're hooked they want to keep coming back over and over again!

BAGJUMP® Airbags for Ski & Snowboard

SNOW LANDING
For the most realistic snow training.

AIRPIT STANDALONE
The versatile multi-sports airbag.

ALLROUND AIRBAG
Your vision - your airbag!

BROADER TARGET GROUP

Our airbags offer options for all target groups. From beginners to intermediates, up until pro level, everyone is guaranteed to have fun!

ENHANCED REPUTATION

Most national snow teams own one or more BAGJUMP® airbags. Enhance your facility's appeal to and attract pro riders at your resort / venue!

TARGETED BRANDING

Generate additional income through targeted branding. The airbags are a huge billboard right in the center of the action. A marketers dream!

BIKE & SKATE

Yannick Granieri, France

Our bike products allow riders of all skill levels to practice jumps with minimized injury risk – from beginners to advanced riders. From portable to permanent setups. BAGJUMP® airbags are the gold standard to progress safely!

🔪 Bike & Skate

EXPLORE OUR ADVANCED AIRBAG TECHNOLOGIES FOR BIKE AND SKATE

BAGJUMP® Landing airbags and flat airbags have become an absolute must in any form of training for biking. Whether you are a beginner trying the first jump or looking to win Crankworx – our airbags will help you get there safely.

ALL-TERRAIN LANDING FOR BIKE PARKS - THE GOLD STANDARD

Leogang, Austria

- ✓ A must for any bike park: Take away risks from the trails by giving riders of all skill levels a platform to try their jumps safely.
- ✓ Our airbags are built tough for commercial use and to withstand the high frequencies of a busy bikepark.
- ✓ Less injuries mean people will come back and ride more often.
- ✓ Great advertising space for sponsors and brands.

BIKE LANDINGS - YOUR PERSONAL BACKYARD SETUP

RWilly backyard flip, Australia

- ✓ Portable and lightweight to session with your friends anywhere, anytime - Setup in just minutes.
- ✓ Safety of an airbag, ride out like a normal landing.
- ✓ 3 Standard sizes or custom sized.
- ✓ Works perfectly for bikes and scooter.

AIRPIT STANDALONE - THE FOAMPIT ALTERNATIVE

Lake Garda, Italy

- ✓ Installed indoor and outdoor, the AirPit Standalone is the ideal foam pit replacement solution. No more dust, fluffing the foam or long waiting times.
- ✓ Easy to transport for events and practice sessions.
- ✓ Use it in summer for Bike/Skate/Scooter and in the winter for Ski/Snowboard/Tubing.
- ✓ Features our patented Airpillar System.

BIKE LANDINGS FOR PROS AND TOURING SHOWS

Nitro Circus, USA

- ✓ Practice the biggest jumps onto a real landing with piece of mind; the safest way to push your limits.
- ✓ Save countless hours of setting up and tearing down scaffold or dirt landings.
- ✓ Packs small for easy transport and installed quickly; the ultimate touring landing.
- ✓ Any size or shape is possible.

ALLROUND AIRBAGS FOR PROFESSIONAL TRAINING

Mammoth Mtn., B.C., Canada

- ✓ Like a foam pit on steroids; allows you to go way bigger and land way softer than you ever could on foam - your mind is your limit.
- ✓ Eliminates all down sides of foam pits; easy to exit, weatherproof, no nasty foam cubes, no refuge for snakes or other animals, and best of all it is portable so you can take in anywhere you want.
- ✓ RWillyLand and Pastranaland have clearly shown this boosts your riding to the next level - if you want to ride at the top you will need this airbag to help you train for it.

BIKE LANDING
Session anywhere, anytime!

ALLROUND AIRBAG
For extreme adrenaline seekers.

ALL-TERRAIN LANDING
The game-changer for action sports.

AIRPIT INGROUND
The smartest alternative to foam.

AIRPIT STANDALONE
The versatile multi-sports airbag.

AIRPIT GYMNASTICS
The portable pit for gym training.

ALL SKILL LEVELS

We have airbags for all skill levels- from beginners to pros. You can also have multiple takeoffs for one airbag to satisfy riders of all abilities.

RETURNING CUSTOMERS

We offer airbag solutions that your customers will love and once they're hooked they want to keep coming back over and over again!

TARGET BRANDING

Leverage social media exposure with your own logo or monetize through targeted branding opportunities!

FMX

KS FMX / Monster Energy, Florida, USA

Whether it's for touring shows or to practice at your own compound. FMX is an incredibly dangerous sport and injuries are not uncommon. Our airbags are the ultimate life-saving solution to make practice and touring safer and also more efficient.

FMX

EXPERIENCE NEXT LEVEL SAFETY WITH OUR STATE-OF-THE-ART AIRBAG OPTIONS FOR FMX

BAGJUMP® has been at the leading edge of FMX progression for over a decade. The performance progression at Pastranaland, Nitro Circus, Josh Sheehans triple flip or Daniel Bodins snowmobile double flip were made possible by BAGJUMP®. We are the choice of the best athletes in the sport and the top touring shows in the business.

FMX LANDING - FOR TOURING SHOWS AND YOUR COMPOUND

Nitro Circus, USA

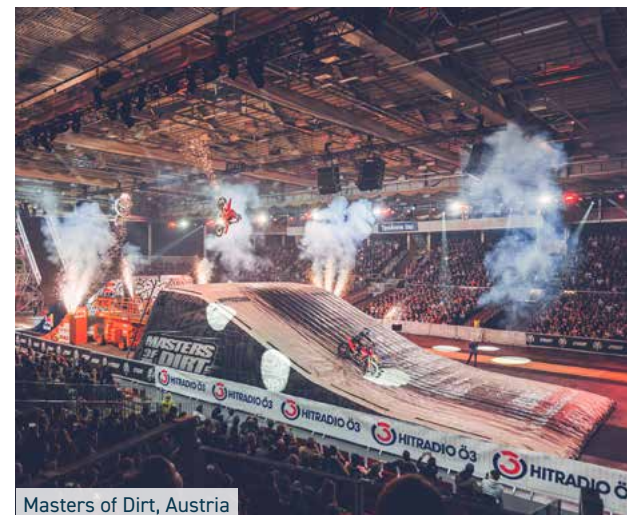

- ✓ Packs down small, easy set up and transport-saving you time and money.
- ✓ More safety means less injuries and more riding.
- ✓ Entertain the crowds with the bigger and more spectacular jumps.
- ✓ Suitable for quadbikes, buggy, snowmobiles and anything else you want to land.

ALLROUND AIRBAGS - LIKE A FOAMPIT ON STEROIDS

Kyle Demelo, B.C., Canada

- ✓ Better impact absorption than foam pits means you can go much bigger; this is how double and triple flips are trained.
- ✓ Easier exit, no crane needed, no more getting stuck in filthy foam pits, which amplify additional hazards.
- ✓ Our airbags are weather proof and portable - take them on the road with you.
- ✓ Can also be used with quadbikes, buggys and snowmobiles.

Masters of Dirt, Austria

Freeform, Australia

ALL TERRAIN AIRBAG - DIRT / TRUCK / SCAFFOLD LANDINGS

Kyle Demelo, B.C., Canada

- ✓ Place it onto existing landings, such as dirt, truck landings or scaffold structures, as a safety topper for practice or shows.
- ✓ Retrofit your indoor or outdoor landing and increase your park safety standards.
- ✓ Fully calibratable air chambers to adjust to your preferred softness.
- ✓ No-Bounce technology for smooth landings for easy ride outs.
- ✓ Combine it with an inflated hill to complete the full FMX landing.

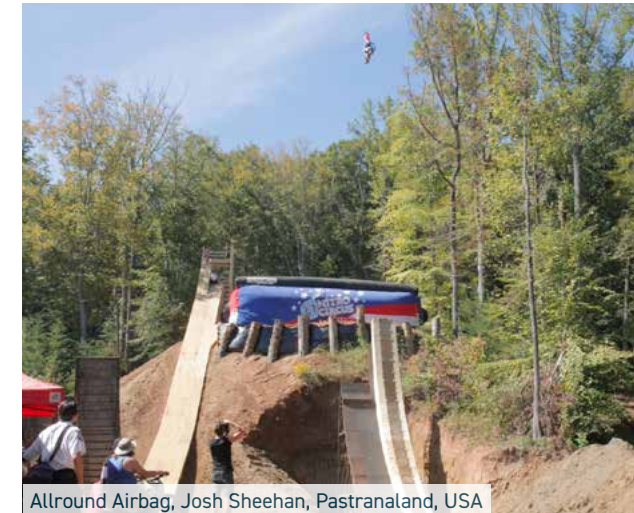

AIRPIT STANDALONE LANDING - FOR THE EXTRASOFT LANDING EXPERIENCE

Kyle Demelo, B.C., Canada

- ✓ A perfect mixture of foampit and landing, the softest landing possible where you can still ride out.
- ✓ For those extra gnarly tricks where you need an inbetween practice setup 1) Allround Airbag to initially learn 2) Airpit Standalone Landing to spot the landing 3) All-Terrain Landing or FMX Landing to perfect your tricks.

FMX

FMX

YOUR BENEFITS

LESS INJURIES

Airbags ensure a safer riding environment - no matter if it's at your compound or at a show. Less injuries means more riding.

PUSH YOUR LIMITS

With the safety of airbags you and your riders can safely push your limits and go bigger than they ever could before, which will result in more spectacular jumps.

HIGHER ENTERTAINMENT VALUE

Increase the entertainment value by allowing bigger tricks thanks to the safety of airbag landings, which will have crowds on their feet wanting more.

BAGJUMP® Airbags for FMX

The touring shows favorite!

ALLROUND AIRBAG
For extreme adrenaline seekers.

ALL-TERRAIN LANDING
The game-changer for action sports.

INCREASED PROFITABILITY

Our airbags save assembly time and are highly portable. This means your events become more efficient and more profitable.

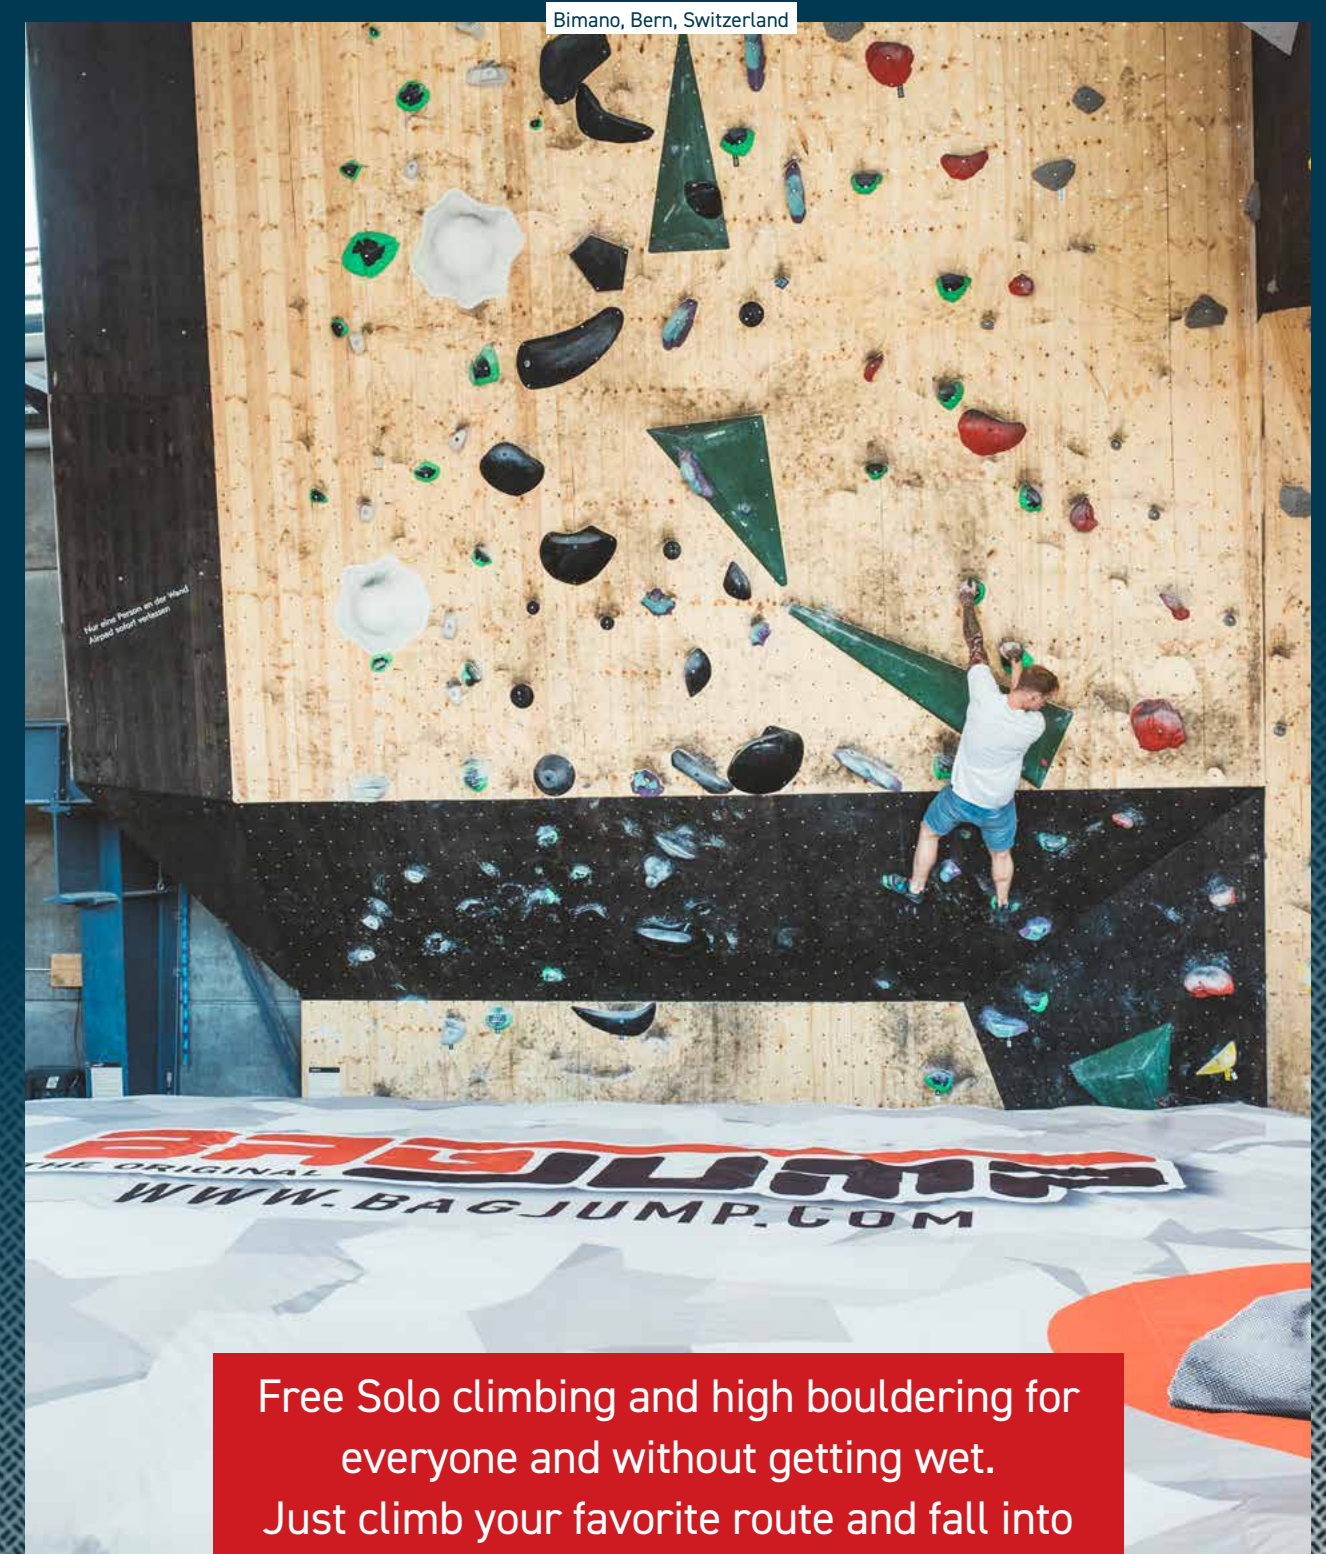

COMBINE IT

You can connect our tour landings modular to make them double as wide. Or you can set up a flat bag for practice before the show. The ultimate setup!

TARGETED BRANDING

Leverage social media exposure with your own logo or monetize through targeted branding opportunities!

CLIMBING

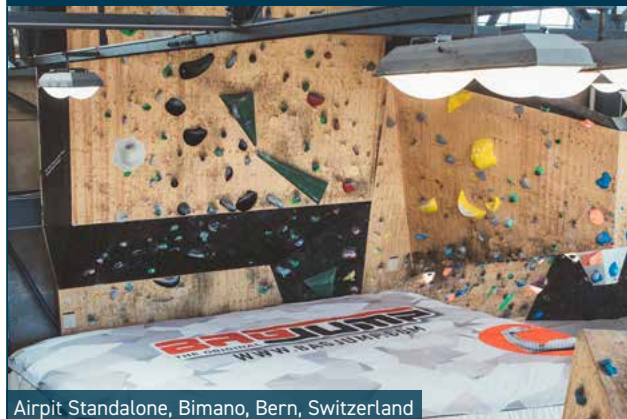

Free Solo climbing and high bouldering for everyone and without getting wet. Just climb your favorite route and fall into the BAGJUMP® Airpit or customize your boulder area with the Airpit Gymnastics instead of hard foam pads.

✓ Climbing

OUTDOOR AND INDOOR AIRBAG CLIMBING SOLUTIONS

Replace your foam pit or simply get rid of your bulky and hard boulder mats, as well as adding more safety to your indoor or outdoor climbing facility with the BAGJUMP® Airpit. With BAGJUMP® airbags incorporated into your climbing facility, you'll enjoy enhanced climbing frequency, exceptional durability, significant staff and time savings, and immediate returns on investment.

AIRPIT STANDALONE AND INGROUND - THE SMART ALTERNATIVE TO FOAM PITS

Airpit Standalone, Bimano, Bern, Switzerland

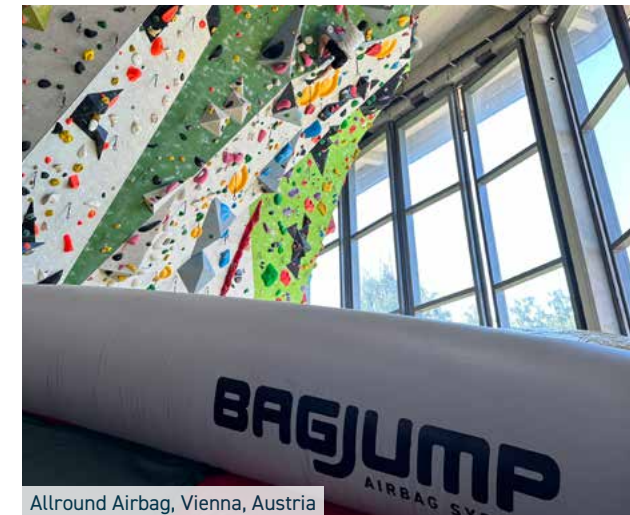

- ✓ More hygienic, healthier and easier to clean.
- ✓ Easier and quicker exit mean a higher climbing frequency.
- ✓ Years more durable than foam cubes.
- ✓ Airbags provide a higher level of safety compared to standard padding in your boulder area.

ALLROUND AIRBAGS - SPECTACULAR EVENTS AT YOUR VENUE

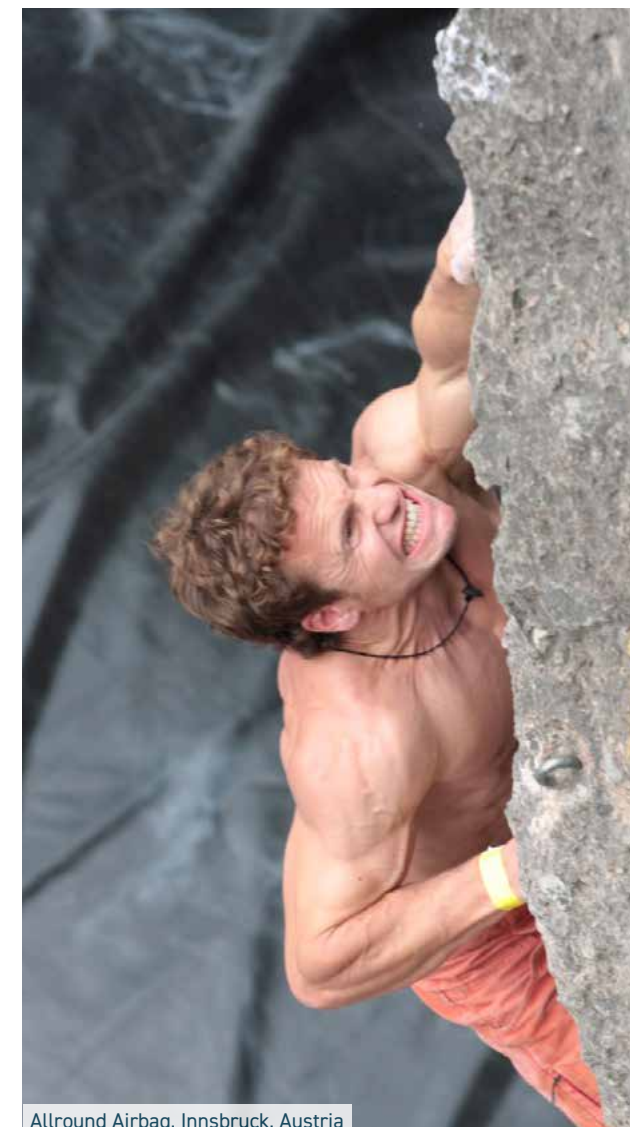

Allround Airbag, Bronx Rock, Cologne, Germany

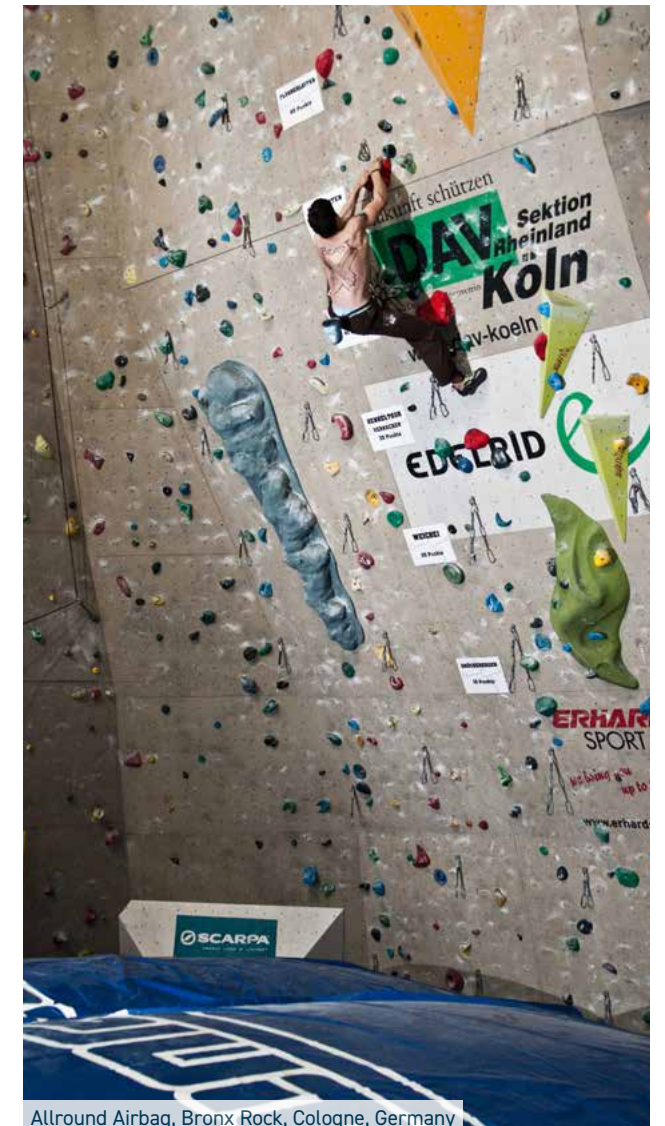

- ✓ Superior softnes for spectacular free solo or high bouldering events - just climb and drop.
- ✓ Add event sponsor logos or your custom design to the entire landing surface.
- ✓ Setup and teardown are each approx. 1 hour.

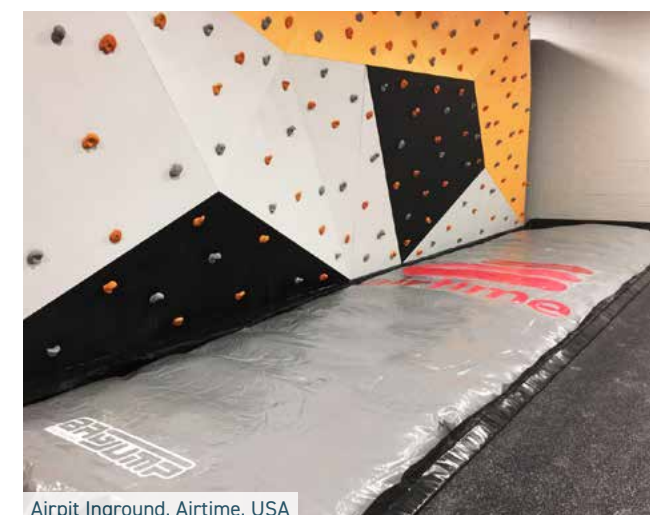

Allround Airbag, Vienna, Austria

Allround Airbag, Innsbruck, Austria

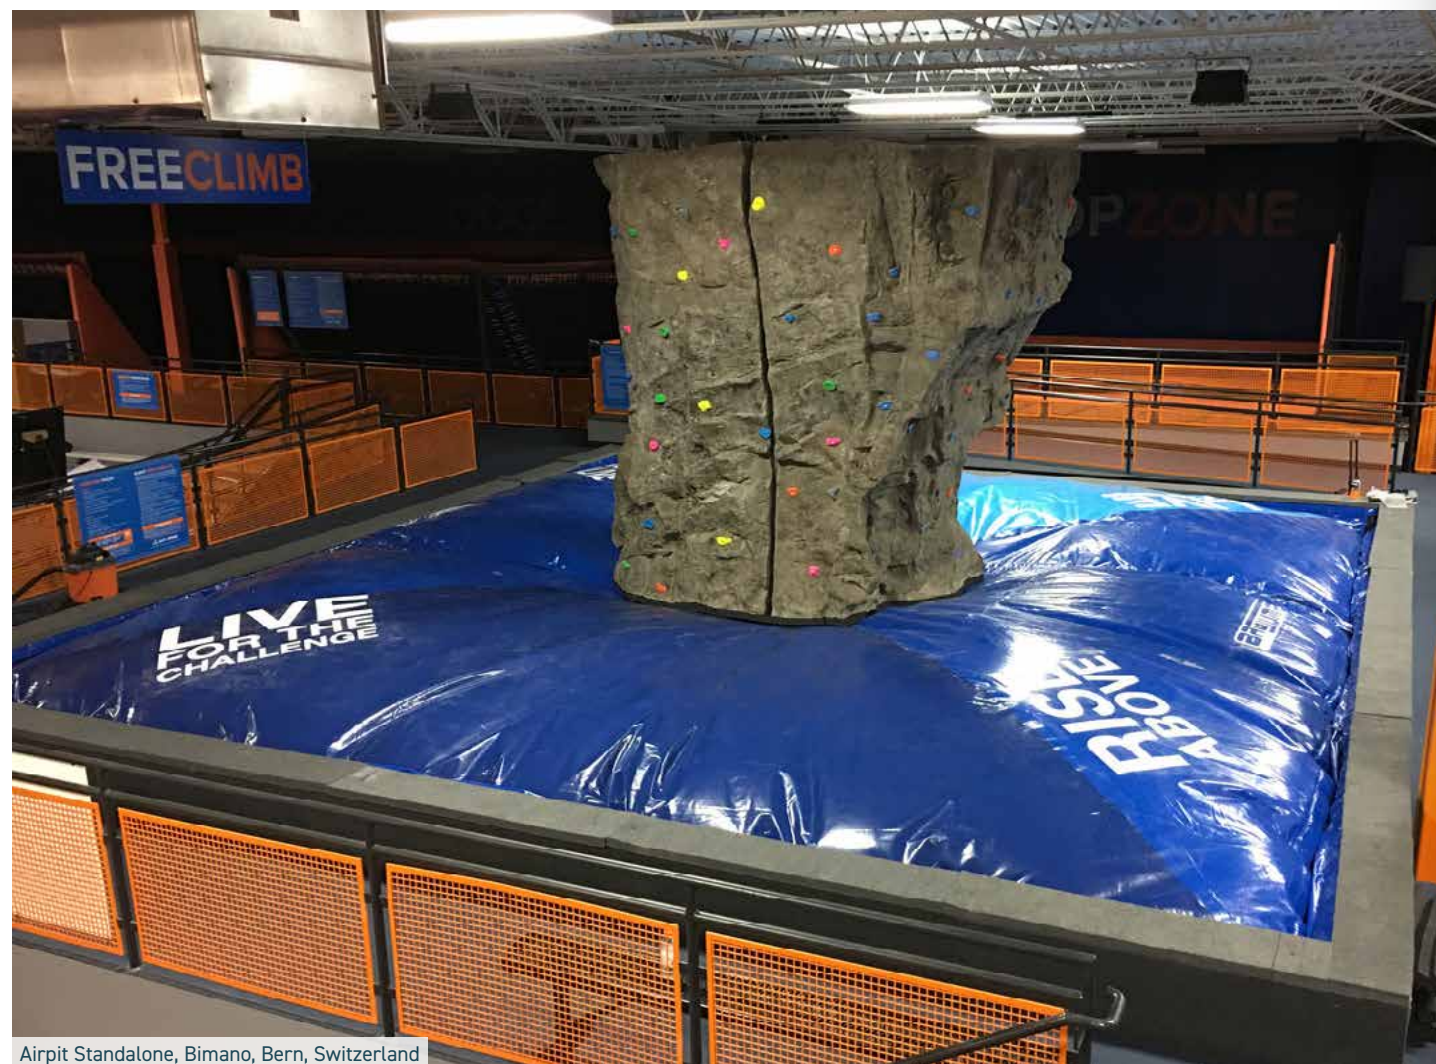

Allround Airbag, Bronx Rock, Cologne, Germany

Airpit Inground, Airtime, USA

Climbing

Airpit Standalone, Bimano, Bern, Switzerland

YOUR BENEFITS

LESS INJURIES

Airbags ensure a safer climbing environment - no matter if it's at your climbing center or at an event. Less injuries means more climbing.

PUSH YOUR LIMITS

With the safety of airbags you and your climbers can safely push their limits and go bigger than they ever could before.

HIGHER ENTERTAINMENT VALUE

Increase the entertainment value by allowing extreme routes thanks to the safety of airbag landings. Spectacular events for both participants and viewers alike.

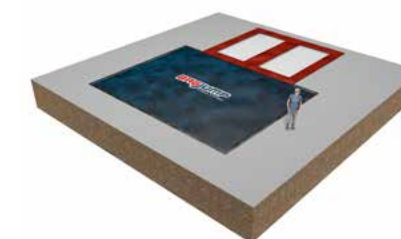

BAGJUMP® Airbags for Climbing

AIRPIT STANDALONE
The versatile multi-sports airbag.

ALLROUND AIRBAG
For extreme adrenaline seekers.

AIRPIT INGROUND
The Smart Alternative to Foam.

EASY TO CLEAN

Blood, sweat or chalk? Our airbags are much more hygienic than foam pits and you can actually clean and disinfect them easily.

NO MORE TOXIC FOAM DUST

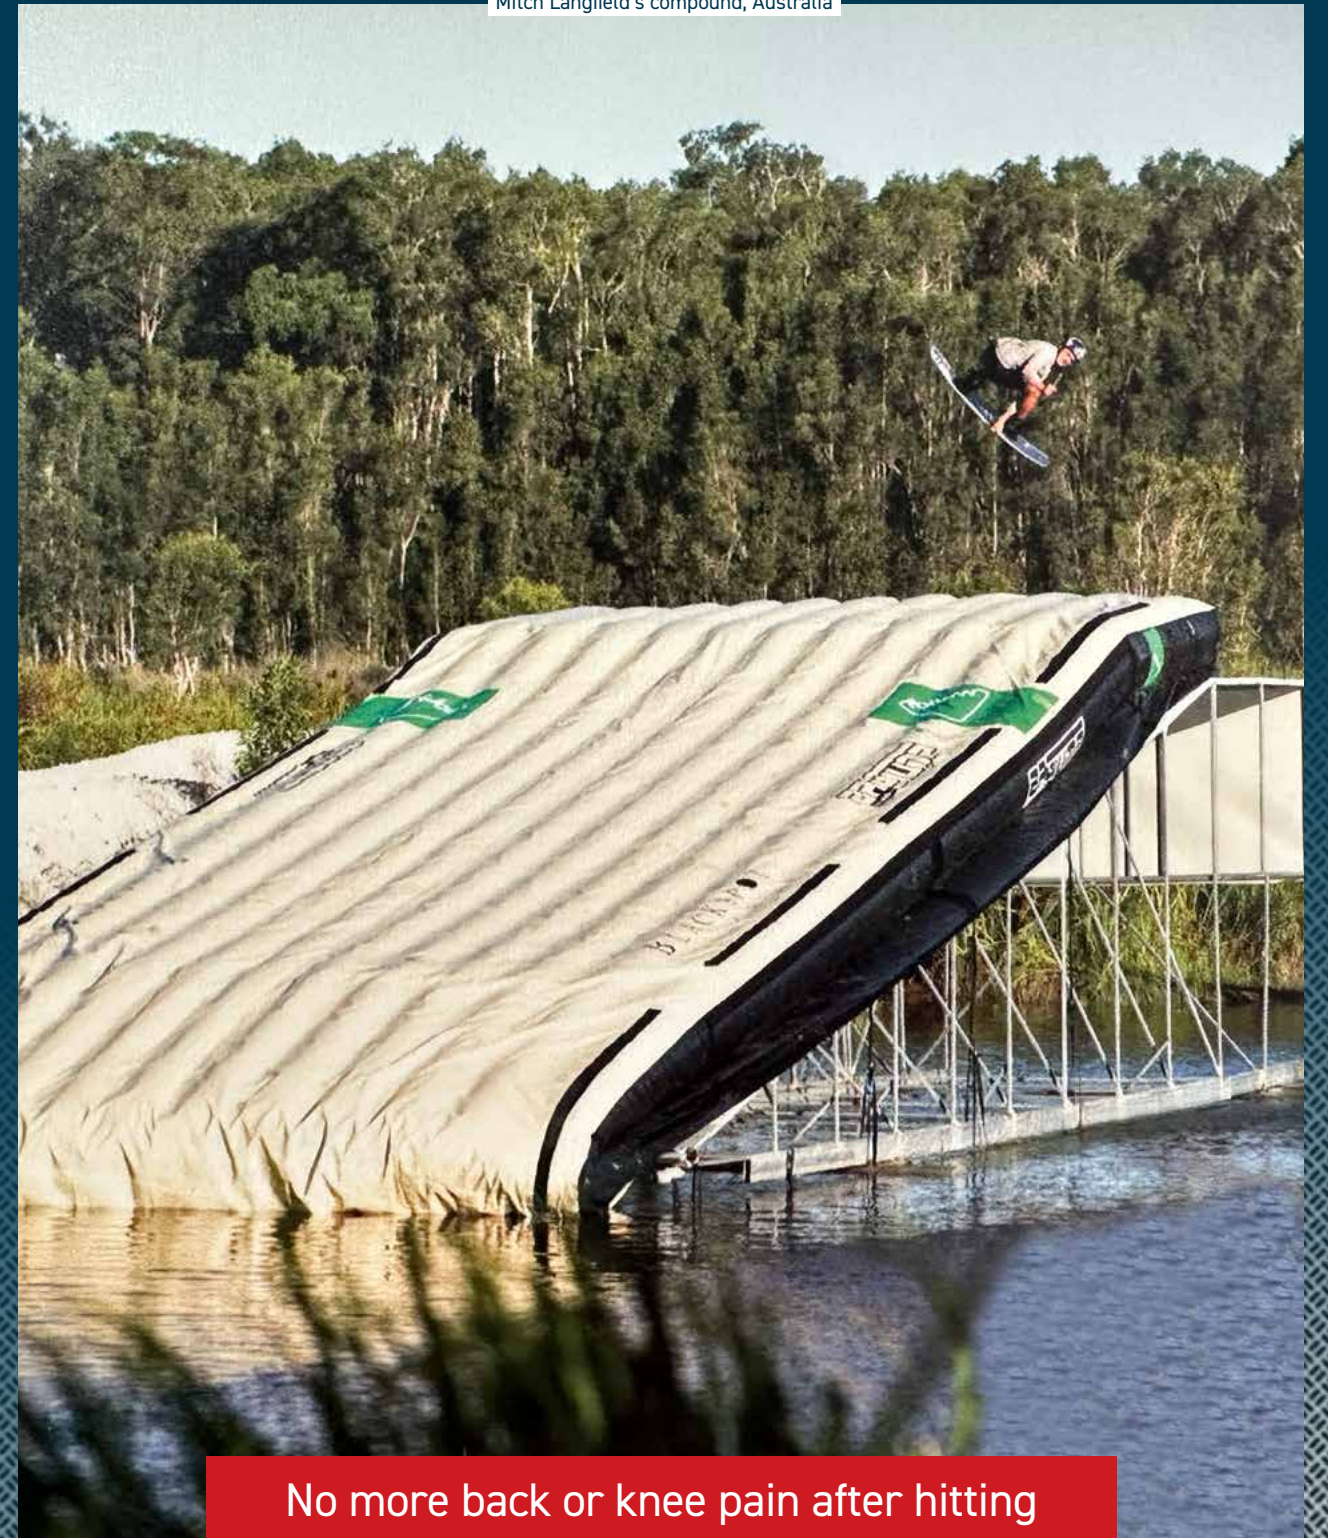

Ever been stuck upside down in a foam pit? Studies have shown the negative health effects of foam on climbers.

TARGETED BRANDING

Leverage social media exposure with your own logo or monetize through targeted branding opportunities!

WAKEBOARD

Mitch Langfield's compound, Australia

No more back or knee pain after hitting kickers to the flats. With the BAGJUMP® Airbag you can boost off a kicker with a smooth landing every lap.

Wakeboard

BAGJUMP® Airbags for Wakeboard

BIKE LANDING
Session anywhere, anytime!

ALL-TERRAIN LANDING
The game-changer for action sports.

YOUR BENEFITS

LESS INJURIES

Airbags ensure a safer riding environment - no matter if it's at your compound or at a show. Less injuries means more riding.

PUSH YOUR LIMITS

With the safety of airbags you and your riders can safely push their limits and go bigger than they ever could before, which will result in more spectacular jumps.

GO BIG, BUT STAY SAFE!

Go big but stay safe! Our airbags can be adjusted for desired softness. Non-sticky topsheet for a smooth landing and ride out

Leverage social media exposure with your own logo or monetize through targeted branding opportunities!

STUNT INDUSTRY

Jaguar Barrell Roll, UK

Thanks to pioneering advances in safety technology, our airbag systems allow stunts to have less CGI or cables and more real action. We are your partner for high-performance impact protection for people and cars.

Stunt Industry

EXPLORE OUR INNOVATIVE AIRBAG SYSTEMS FOR MAXIMUM SAFETY OF YOUR STUNT PERFORMANCES

At BAGJUMP®, we specialize in building high-performance stunt airbag systems which safely cushion the vertical and horizontal impacts of people and vehicles. We have developed many different airbag systems for record breaking stunts, both for movies and stage performance. At BAGJUMP®, we believe nothing is impossible – just not yet done!

FALL PROTECTION FOR MOVIE STUNTS

Action Training Formation, France

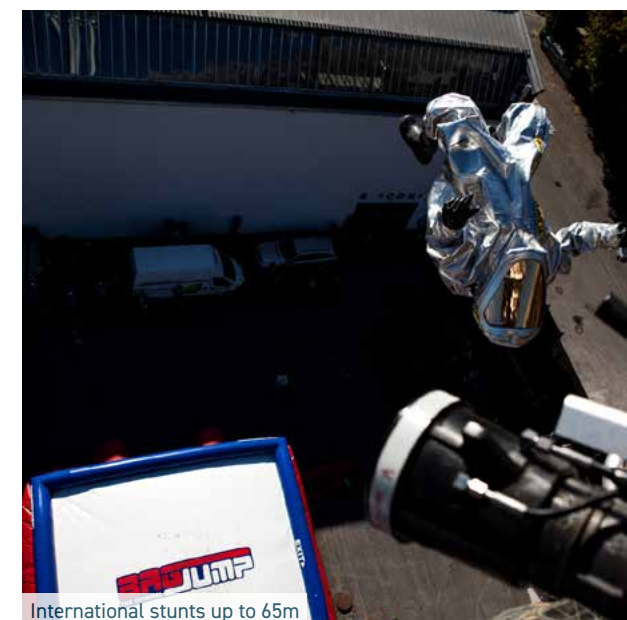

- ✓ We specialize in building high performance airbag systems to cushion impacts for all objects or people.
- ✓ We offer different systems and sizes for various fall heights for jumps up to 65m (214ft).
- ✓ Need the airbags to be flame retardant? No problem.

AIRBAGS FOR CAR STUNTS

Jaguar Barrell Roll, UK

- ✓ Maximum safety and smooth execution for record-breaking car stunts.
- ✓ Horizontal or vertical impact absorption.
- ✓ Fully customizable configurations and seamless integration of our airbags into the stunt setup.

International stunts up to 65m

Jaguar drop testing

PROTECTION FOR HIGH-SPEED HORIZONTAL IMPACTS

Red Bull No Limits 2011, high-speed impact protection

- ✓ Maximum safety for riders, actors or stuntmen during their jumps, falls, or high-speed chases with horizontal impacts.
- ✓ Even impact absorption, minimizing the risk of injury.
- ✓ Reliable protection for daring high-speed manoeuvres with any kind of vehicle.

IN-STAGE AIRBAGS FOR MORE EXCITING SHOWS

Taylor Swift "The Eras Tour" 2023

- ✓ Ever wondered how Taylor Swift or Madonna jumped into the stage?
- ✓ Safe landing surface for performers, allowing thrilling stunts which leave the audience speechless.
- ✓ Very fast inflation times to fit your tight show schedule.

Stunt Industry

YOUR BENEFITS

SAFER STUNT CONDITIONS

Our high-performance stunt airbag systems create safer stunt conditions, reducing incidents for stuntmen, actors, and performers.

HIGHER ENTERTAINMENT VALUE

Our airbag systems enable more daring stunts, resulting in higher entertainment value and pushing the boundaries of performances.

INCREASED EFFECTIVENESS

Our airbag systems allow for a higher number of stunts without the need to reset boxes or structures on the set, saving valuable time and resources.

BAGJUMP® Airbags for the Stunt Industry

CUSTOM AIRBAG
Your vision - your airbag!

ALLROUND AIRBAG
For extreme adrenaline seekers.

AIRPIT STANDALONE
The versatile multi-sports airbag.

FIRE RETARDANT

Depending on your needs we can make the airbag with materials passing the highest fire ratings.

GREEN-SCREEN YOUR LANDING ZONE

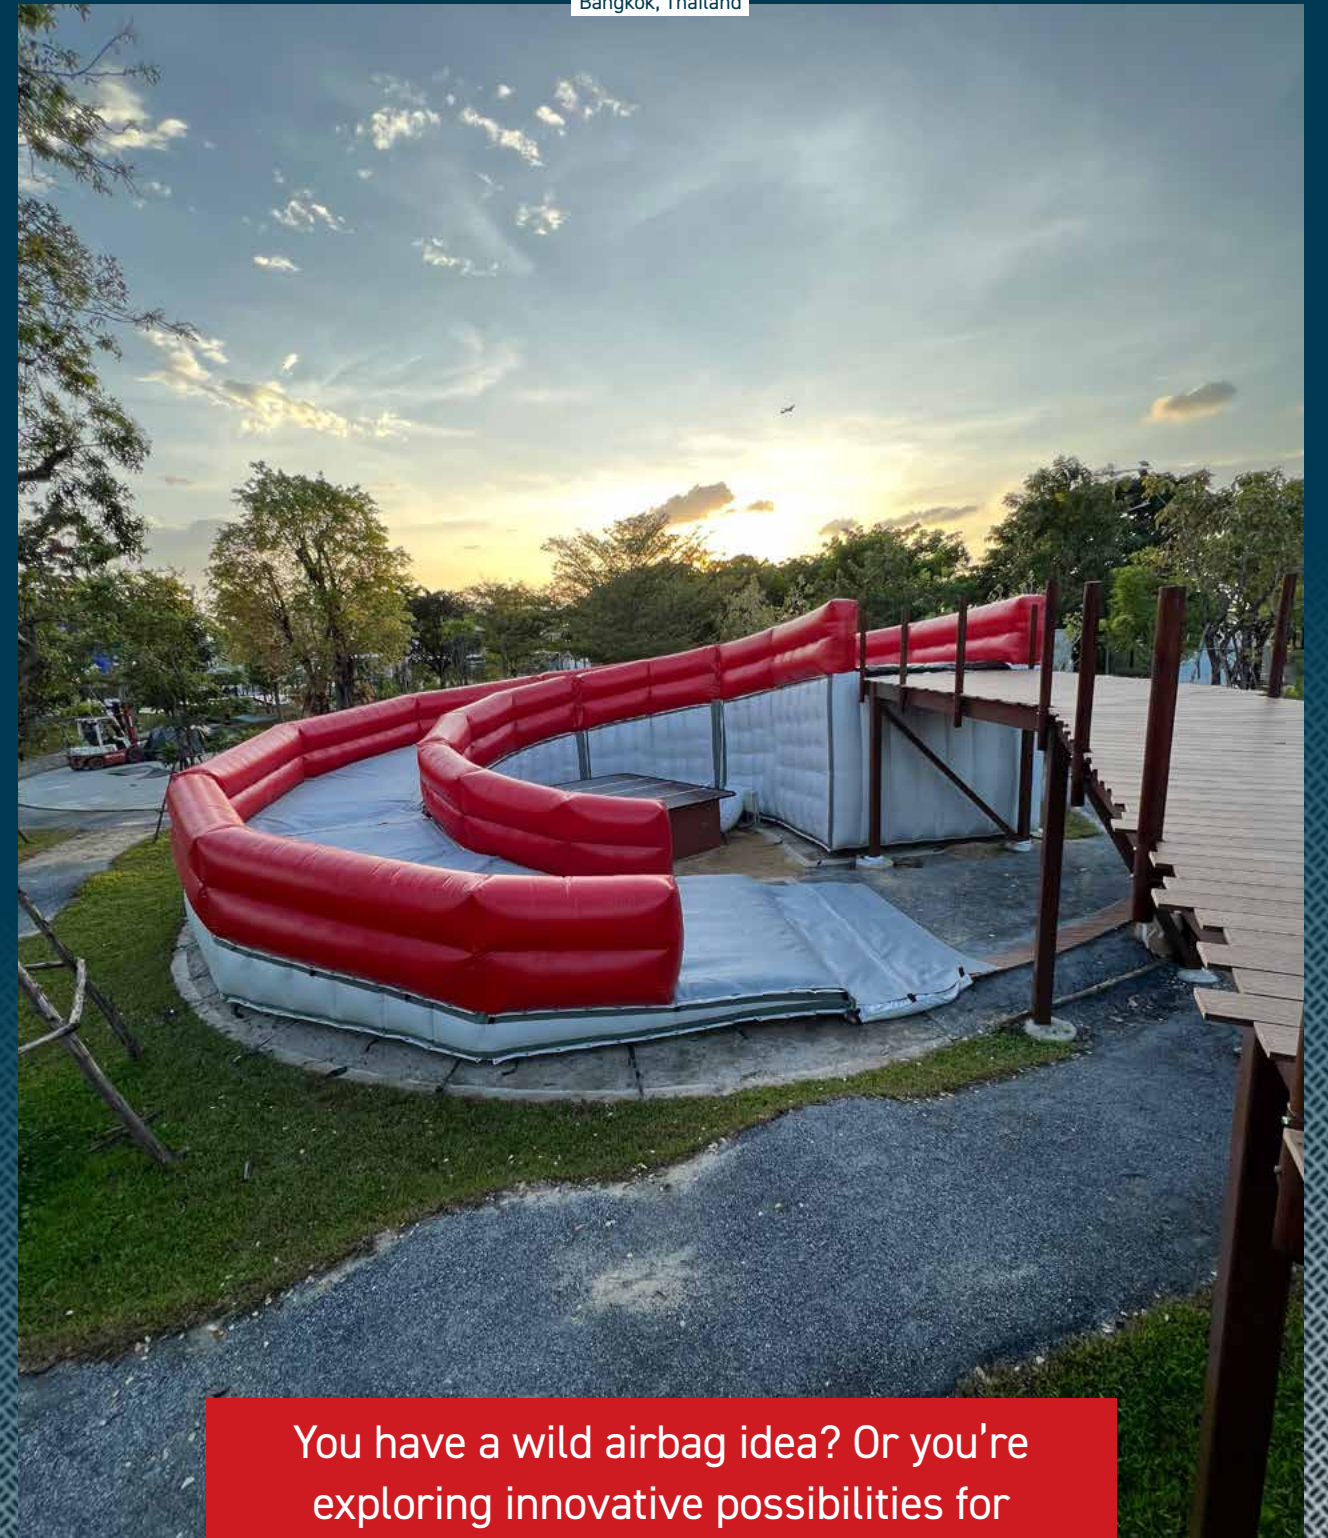

Our green airbags are perfect for shootings, as the landing zone can be easily removed or replaced during post-production editing.

CUSTOM SOLUTIONS

Stunts can be very specific. We can build airbag systems for horizontal and vertical impacts of any sorts for stuntmen as well as vehicles.

CUSTOM SOLUTIONS

Bangkok, Thailand

You have a wild airbag idea? Or you're exploring innovative possibilities for custom-made airbags? Trust our expertise - we've worked on them all!

Custom Solutions

MARKET LEADERS FOR TAILOR-MADE AIRBAG SOLUTIONS ACROSS INDUSTRIES

We are the pioneers in Airbag in airbag protection, including all forms of horizontal and vertical impacts by a person, vehicle or object. And we are firm believers that challenges are just opportunities in disguise. Over the years, we have worked with the elite in motorized & non-motorized sports, the Hollywood film and stunt industry, aerospace & tech companies and more – ensuring maximum safety without compromising project timelines.

Our team of in-house engineers, construction, and material experts enables us to go from brief to finished product very quickly and efficiently. Our extensive knowledge allows us to create, prototype, and refine tailored airbag solutions that go above and beyond expectations. We're not just here to meet the standard – we're here to set new benchmarks in innovation.

Material

We only process the best material

HEYtex®

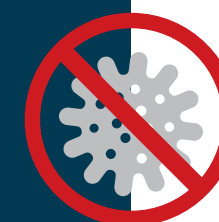

All BAGJUMP® materials are exclusively produced by Heytex technical textiles. We have developed these custom-made materials alongside HEYtex® over years of research and co-operation in order to guarantee high-performance, durable materials which are precisely suitable for their intended purpose. Whether it is for the high jump-frequency and year-round usage of a trampoline park, or the high impact energy

of a freestyle motocross landing, we ensure that the materials are custom-tailored to withstand the short- and long-term stresses of their individual use. Germany's HEYtex® Group are the world leaders in the development and production of high-quality, functional and technical textiles. HEYtex® have over 100 years of experience in R&D and production with certified quality and state-of-the-art technology.

Did you know that our printed topsheets have been treated with the anti-viral additive?

Long before Covid-19, we have been using an anti-bacterial and anti-viral additive in all of our printed soft touch topsheet materials. According to the information the additive manufacturer provides, it is 'effective against coronavirus and protects synthetic textiles. Treating PES textiles with this additive can reduce viral load by up to 99 %

SAFE TY

Maximum safety for
ultimate peace of mind
is our highest priority.

✓ Safety

Elevate your Airbag safety with the new BAGJUMP® PRESSURE ALARM SYSTEM

Enhance the safety standards of your BAGJUMP® Airbag or any other inflatable device with the new BAGJUMP® Pressure Alarm. In the unlikely event of any airbag pressure deviations, power failure, or even blackouts, rest assured that the BAGJUMP® Pressure Alarm will promptly activate an audio-visual signal, instantly alerting both users and staff. The Pressure Alarm also features a DMX port for seamless integration into your light and audio system. This enables you to trigger specific light and sound effects or make important announcements when the alarm activates. Complying with the latest industry regulations, this product is built in accordance with recognized safety standards and guidelines.

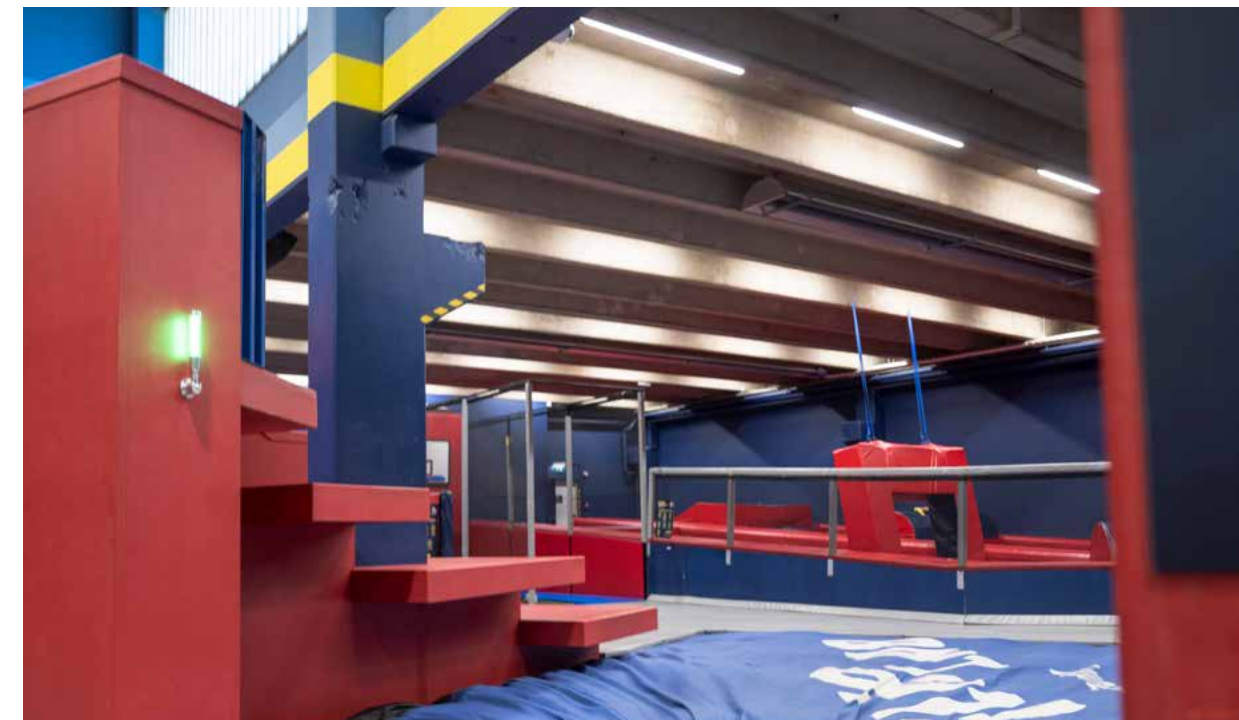

As of 2022, ISO 23659:2022 has made the Pressure Alarm feature mandatory for trampoline parks, ensuring a vigilant monitoring of your inflatable structures.

WARNING SIGNAL LAMP INCLUDED
